DESCRIPTION

Norma 7mm (.284) 156gr Oryx Bonded rifle bullets. 100 projectiles per box.

Norma Oryx bullets are the perfect choice for any hunter looking for an accurate and reliable projectile. These multi-purpose bullets feature a bonded technology, soft point, and jacket construction that results in a mushrooming projectile with extreme accuracy and stopping power.

The extra-thick copper jacket is molecularly bonded to a lead core, making these bullets incredibly durable and able to withstand even the toughest conditions. This ensures that they will penetrate deep into their target while still providing maximum expansion. Additionally, these bullets have been designed to ensure perfect mushrooming at all impact velocities, giving you the confidence that your shot will be on target every time.

Whether you're hunting big game or small game, Norma Oryx bullets are sure to provide you with the performance you need. With their superior accuracy and stopping power, they are sure to become your go-to bullet of choice for all of your hunting needs.

I buy everything possible from these people. They are the absolute best in both product and customer service. I just wish I could give them a higher rating beyond 5 stars!!!
