Counting Methodology and Limitations

Treatment

One independent post explicitly endorsing or criticizing a named member/account.

Each named person in an independent endorsement post receives one positive count.

Multiple transactions described in one post count once for that member.

Names appearing only inside a quoted earlier post are not counted again.

Counted only when the reply adds its own affirmative transaction feedback.

Excluded when no member is named or no transaction/reference is stated.

Excluded.

Obvious capitalization, spacing, punctuation, and known username variants were merged.

Listed as allegations or warnings made by forum users, not as independently proven facts.

Excluded rather than inferred.

Thread content available through page 50 and post #986 during the July 11, 2026 review.
