BIG HUNTER

Published in [Side-by-side express](#) Read 7445 times font size [Print](#) [Email](#)

BIG HUNTER is the new side-by-side express manufactured for Dangerous Game Hunting. Each rifle comes with monoblock barrels in Chrome-Molibdenum steel. Action and small parts are machined from solid blocks of special compound steel (Nickel-Chrome-Molibdenum). The British-type double bite locking system yields maximum

resistance to the very high pressures generated from heavy loads. The extraction system is manual (automatic ejectors on request). Stocks come from the best high grade walnut with fully customized dimensions. Custom engraving from Italy's best artists is available on request.

In calibers: 375 Flanged Mag. N.R. - 375 H&H Mag. - 416 Rigby - 470 N.E. - 450 N.E. (3" 1/4) - 450/400 N.E. (3") - 450/400 Mag. N.E. (3" 1/4) - 500 N.E. (3" 1/4) - 500/416 N.E. (3" 1/4) / other calibers available on request.
