Product Type Predator Calls

Double Reed w / Coaxer Voice

The **GHC Government Hunter Cottontail Predator Call**. A super gravely sound is created, while blowing into this call. When blowing on the opposite end you get a squeaker sound for close in calling. Hyper-ventilating death cries can be accomplished by blowing and sucking air from either end.

My go to call

These calls are exceptional. I rely on them. Part of my income is calling predators for ranchers. I can always count on this call on the hard to call, trained up coyotes. I never leave home without one. Works good on bobcat too.
