As the #1 selling multi-tool platform to the US military, the MP600 series has been to hell and back. Still inclusive of everything that makes the original great, this version of the tool features replaceable Tungsten Carbide wire cutters. Some situations require a little extra grit.

- Features
- Specifications
- Gerber Guarantee
- Shipping

Thanks to feedback we received from our men and women in uniform, we toughened up our Multi-Plier 600s by adding our patented replaceable tungsten carbide wire cutters to this already popular tool. When the cutters become dull or misshapen simply rotate the tungsten carbide cutters 120-degrees, and you've got yourself a good-as-new wire cutter. After three rotations, the entire cutter can be replaced.

COULDN'T BE BETTER
14 days ago
I bought this tool around 30 years ago. I've carried and used it every day in the oil patch, in the ambulance, and on my homestead. Many, many times I've blessed the ability to access the pliers and cutters one-handed. Excellent tool, brilliant design, superb strength.

Yes, I recommend this product.
